CAREER OBJECTIVE

As a Computer Engineering student, I am excited to launch my career in the tech industry. I am eager to contribute my technical skills to a forward-thinking team and enthusiastic about staying current with emerging technologies and collaborating on innovative solutions that make a meaningful impact

EDUCATION

- Bachelor of Engineering | Computer science (pursuing)
  Velammal Engineering College | 2021-2025
  3rd Year CGPA: 7.8
- Higher Secondary School | Alagar Public School | 2021
  Percentage: 85.1 %
- Standard Secondary School Leaving Certificate | Alagar Public School | 2019
  Percentage: 82.4 %

SKILLS

- Programming languages -Java, Python, and C
- Web tool - HTML, CSS , Javascript and Reactjs
- Git and GitHub
- SQL programming

CERTIFICATIONS

- **Python** course in Kaggle on June 22, 2023.
- **Android App Development** course in Intershala on July 18, 2023.
- **Data analysis** course in NIIT on August 18, 2023.

PROJECTS

- **MediAlert | Medicine Remainder application**
  - As a dedicated and innovative computer science student, I took the initiative to create a mobile application aimed at improving medication adherence and patient well-being. The "MediAlert" app was designed to address the common challenge of forgetting to take prescribed medications on time, thus enhancing overall health outcomes.

- **Trendigo | Frontend Webpage for clothing**
  - Trendigo is a cutting-edge online clothing platform designed to provide users with a seamless and engaging shopping experience. The frontend of Trendigo showcases a sleek, modern design combined with user-friendly navigation to ensure customers can easily explore and purchase the latest fashion trends.
